AOC

The AOC GH210 is the ideal headset for gamers looking for lightweight comfort, superior sound quality and a cool LED lighting experience. Precise 50mm drivers deliver an exciting sound experience to let users hear more of their favorite games. It's also comfortable and durable, with a detachable boom mic and convenient multi-platform compatibility. The LED lighting can create a realistic gaming atmosphere, offering gamers a different style of visual enjoyment.

ERGONOMIC

Comfort is always a key factor when choosing a gaming headset. The leatherette padded headband, plus the breathable soft touch ear pads that always return to their original shape, optimize comfort for the wearer, no matter how long the game.

IN-LINE CONTROLLER

Quickly and conveniently mute your microphone or adjust volume. Ergonomically positioned, so no more need to interrupt your game.

IMMERSIVE EXPERIENCE

AOC headset GH210 offers custom-tuned 50mm driver units in a closed-cup design with a supreme sound quality that is crystal-clear and precise.

LIGHT IT UP FOR MORE FUN

Make a cool statement. With Red lighting, you can make your headphones glow in sync with your voice.

BE HEARD LOUD AND CLEAR

Be heard clearly through the boom mic, thanks to its omnidirectional technology which delivers full-volume crystal-clear sound, with added detachable functionality.
