AOC

The AOC GH300 is the ideal headset for gaming lovers looking for lightweight comfort, full functionality, all at a reasonable price. Precise 50mm drivers let users hear more of the action, delivering an exciting sound experience for all your favorite games. It's also comfortable and durable, and features a detachable unidirectional noise-cancelling boom mic to chat with other gaming mates. 7.1 surround sound and customizable vivid 16.8M RGB lighting combine to create an immersive gaming experience, elevating gamers to an altogether different acoustical and visual level of enjoyment.

Dimensions	195mm * 100mm * 160mm	Acoustics & Electronic Technical Parameters	Sensitivity	100 ± 3dB (at 1KH 1mW)

	Impedance	32 Ω±15%		Connection	USB
			Software	G-Menu	

ERGONOMIC DESIGN

Comfort is always a key factor when choosing a gaming headset. The AOC GH300's leatherette padded headband and breathable ear pads with memory foam optimize all-day wearing comfort.

IN-LINE CONTROLLER

In-line audio controller saves you precious time, allowing you to quickly mute your microphone, adjust volume or even turn on/off the LED lighting.

IMMERSIVE IN-GAME AUDIO

The closed-cup design with custom-tuned 50mm Neodymium driver units provides supreme, crystal-clear and precise sound quality and immersive in-game audio.

LIGHT IT UP WITH RGB FOR MORE FUN

Use AOC G-Menu software to customize RGB lighting from an amazing 16.8 million colors and lighting effects that are driven by games or one of the four Static / Breathing / Cyclic / Music lighting modes.

BE HEARD LOUD AND CLEAR

With its unidirectional noise-cancelling technology, the detachable boom mic communicates your voice seamlessly so that you can have a crystal clear chat with your gaming friends and enjoy a full multimedia experience.
