ULTRA-THIN SUSPENSION KEYCAPS

Enjoy the incredible response time and convenience of our full-size membrane mechanical feeling gaming keyboard, featuring the tactile feel of our ultra-thin suspension keycaps where typing is made easier, giving you that extra edge for those competitive games where keypress accuracy is required.

RAINBOW LED BACKLIGHT

Flash your team colors or create the perfect gaming ambience via the 4 Zone LED back light of the keyboard, personalize your gaming experience to take your immersion to the next level!

25-KEY ROLLOVER

Ensures each key is scanned independently by the keyboard hardware. Each keypress is correctly registered with the maximum of 25 keys allowed to be pressed at once. Unleash your true gaming prowess with no more unregistered key inputs.

DUST AND SPILLRESISTANT

Feel at ease with the AOC GK200's durability with its built-in dust and spill resistance, keeping the internal components of your keyboard safe against the damage caused by excess dust buildup or accidents.
