► Features

AOC Mechanical Switches

AOC Red mechanical switches, deliver enhanced tactile feedback that translates into a more precise input with every button press. The lack of pressure point, defined actuation force of approx 45 cN, ensures a linear and smooth typing experience. Ultra-fast response speeds deliver the best gaming experience and the up to 60 million clicks ensure exceptional durability.

Light FX Rainbow

Featuring AOC Light FX technology for maximum immersion, G-Menu allows the user to preview the RGB effects first before deploying it onto the monitor, keyboard or other devices. Illuminating the gaming setup in various colours the user can also switch the lighting effects through the FN key combination.

RBG LED Sidelight

Side lighting effect can be controlled with the FN+Pause key combination.

All Keys Programmable

AOC G-Menu allows all the favorite keys and keypress combinations to be remapped to execute complex commands anytime in-game.

Full Function Keys

Media and lighting controls are at the fingertips. The FN key controls screen brightness, play/pause and skip music or videos, adjust volume and mute audio, change lighting effect as well as game mode etc.

Stepped Keycaps

Stepped keycaps are designed for maximum comfort, keeping the fingers in a natural position, minimizing fatigue even after prolonged use.

Detachable Type-C Cable

Detachable Type-C cable ensures portability without compromising stability.

N-Key Rollover

N-key rollover ensures that all inputs are registered correctly, guaranteeing that no matter how many keys are pressed, every input gets noticed and implemented in-game. Delivering 100% anti-ghosting by only forwarding the input users intended to send.

Solid Metal Top Plate

Solid metal top plate increases durability and delivers superior stability.

Three Adjustable Keyboard Angles

The two-stepped keyboard foot design allows three different tilt angles, delivering a high-level of comfort, no matter how long a gaming session lasts.

Double Shot Keycaps

ABS double shot keycaps help prevent wear and tear or fading to the imprint making this keyboard a durable, long-lasting choice.

Spill-Resistant Design

Two drainage holes at the bottom of the keyboard, alleviates the worry about accidental spillages, damaging the keyboard.

On-Board Memory

Software and on-board memory profile allows the user to save polling rate, keybinds, macros, lighting effects. Access to the customized profile is available on-the-go, independent of external software.

AOC G-MENU

Our exclusive desktop app enables users to have total control over the devices. AOC G-MENU software allow users to manage profiles, set custom keys, adjust sensitivity, record macros, and change lighting effects. Explore and try applying the profiles shared by the community from the "Discover" section of the G-Menu.

► Specifications

Model Name	GK450
Connectivity Technology	USB 2.0 Wired
Keyboard Switch	AOC Mechanical Switch, Red
Illumination	Light FX Rainbow + RGB Sidelight
Light FX	Off / Static / Breathing / Blink / Wave Ripple / React / Custom Setup
Light FX Sync	Yes
Dedicated Macro Keys	No
Programmable keys	All Key Programmable
Expansion port	No
Media control	FN Combine Keys
Keyboard Rollover	N-Key Rollover
On-Board Memory Profile	1 Profile
Software Requirement	AOC G-Menu
Wrist Rest	No
Cable	1.8M
Product Dimensions	355(L) x 128(W) x 40(H)mm
Gift Box Dimensions	391(L) x 179(W) x 55(H)mm
Net weight	870g
Gross weight	1050g
Color	Black
